

## DENIAL.

How are you like a bulldozer?

What does the title of the artwork, "Denial," mean to you? How does it relate to STDs, hepatitis and HIV?

How can you make decisions when you are emotionally drained by what is happening to you; i.e., depressed, fearful?

How does denial play a role in your life? How does it affect your decision-making?

How could these boulders get back on the cliff?

How does it feel to be in denial? How does it affect your relationships with friends, family and others?

How might you help a friend or family member who is in denial about a personal issue?
