

## REGRET.

What role does regret play in your life?

What information on symptoms of STDs, hepatitis and HIV might the person depicted in this artwork find by reading the books and pamphlets displayed in this picture?

There are three characters on this art worksheet. Explain their story.

What are the characters thinking about?

When feeling regret, do others view you the same way you view yourself?

What risky behaviors could cause someone to be concerned that they may be infected with an STD, hepatitis or HIV?

What words or phrases would you use to best describe this art worksheet?
